

Bi-Fold Doors

with the Network VEKA difference...

Bi-Folding Doors are a contemporary way to transform your home and create stunning, light-filled living areas.

Bring the outside in with Bi-Fold Doors from your local Network VEKA member. You can blur the lines between where your home ends and your garden begins, to create a unique living space that is as versatile as it is beautiful.

Bi-Fold Doors can fill the full width of your property or conservatory for a stunning alternative to traditional patio doors and can be installed so that the doors sit inside or outside the property when folded back. Ask your Network VEKA member for advice on the correct configuration for your home.

It helps to have an guaranteed expert on your side...

These energy-efficient doors 'concertina' back upon themselves to create a stunning entranceway that lets the best of the outdoors in. Simple to operate, the doors glide easily and lock securely.

Panoramic Bi-Fold Doors are perfect for all seasons: keep them closed in winter and watch rain and snowstorms from the warmth and comfort of your home. In spring and summer, cast them wide open for days of 'al fresco' living.

When closed, these high quality, secure doors keep the warmth in and the cold outside, where it belongs.

Thanks to Network VEKA's cast iron guarantees, this is another home improvement that comes with peace of mind built-in.

Bi-Fold Doors not only improve the look and feel of your home, but could potentially increase its value.

With a wide range of colours and woodgrain finishes to choose from, you can specify a Bi-Fold Door to be as unique as you and your home.

Bi-Fold Doors are available in a number of configurations. We'll be happy to advise you on the best options for your home, and answer any questions you might have about this versatile door system.
