# EMERGENCY ROOF REPAIR

Everbuild Evercryl One Coat is a resin-based, fibre-reinforced compound for instantly repairing damage to roofs, gutters and gulleys, even in the wet and on wet surfaces.

INSTANTLY  
WATERPROOFING

ONE COAT APPLICATION

FOR ALL COMMON ROOFS,  
GUTTERS AND GULLEYS

CAN BE USED IN THE WET

Everbuild Evercryl One Coat is instantly waterproof so there is no fear of wash off, meaning emergency leaks can be tackled immediately.

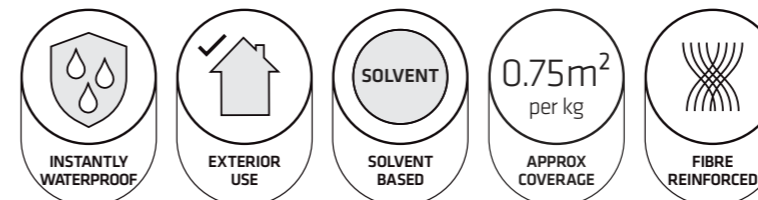

Brush applied with no primer required on sound, non-porous surfaces; Everbuild Evercryl One Coat dries to a smooth, seamless, flexible membrane which helps to resist algae and fungal growth. Containing a high level of fibre reinforcement\*, Everbuild Evercryl One Coat will even bridge small cracks in the surface for instant and total water protection, even in areas subject to seasonal ponding.

Everbuild Evercryl One Coat is designed specifically for the general sealing, maintenance, repair and waterproofing of the most common roofs including concrete, fibre/cement and existing bituminous roof coatings.

## An easy to use, all weather roofing system ideal for waterproofing flat or pitched roofs.

Everbuild Liquid Roof is a one-component, fast curing, polyurethane-based waterproofing system which is applied in two coats to create a solid, seamless, waterproof membrane. Remaining permanently flexible, it is the ideal solution for new installations, the refurbishment of old, or, to overlay most common roofing substrates.

Everbuild Liquid Roof comes ready to use and is cold applied by brush or roller, using moisture in the air to cure meaning no additional catalyst is required. And what's more, it will cure in many weather conditions becoming completely rain resistant in just 10 minutes.

Everbuild Liquid Roof is compatible with concrete, mortar, stone, fibre cement, roof tiles and metals. It can also be applied to wood, asphalt, roofing felt and bituminous coatings with full reinforcement in the form of Sikalastic Fleece-120.

**FAST CURING - RAIN RESISTANT IN 10 MINUTES**

**MOISTURE CURING - NO CATALYST REQUIRED**

**SUITABLE FOR FLAT AND PITCHED ROOFS**

**IDEAL FOR NEW ROOFING INSTALLATIONS AND THE REFURBISHMENT OF OLD**

# ALL WEATHER FULL ROOFING SYSTEM

**Everbuild Liquid Roof**  
All Weather Roofing System

CODE	SIZE	COLOUR	MERCHANT INFORMATION	
			BOX QTY	BARCODE
AQLIQRFGY7	7KG	SLATE GREY	4	5023947614164
AQLIQRFGY21	21KG	SLATE GREY	1	5029347614171
SKLASFLE120150	1M X 50M ROLL	-	1	7612894436402

**STEP 1**

Ensure all surfaces are sound, clean, dry and dust free.

**STEP 2**

Apply the first coat of Everbuild Liquid Roof liberally at a thickness of 1mm, by brush or solvent-resistant roller.

**STEP 3**

If required, apply Sikalastic Fleece-120 on top of the first coat whilst still wet, overlapping the edges.

**STEP 4**

Apply a second coat at a similar thickness to the first, immediately after laying the fleece.

For full application instructions, please refer to latest Product Data Sheet or contact the Everbuild Technical Services Department.

# PAINTS & PROTECTORS

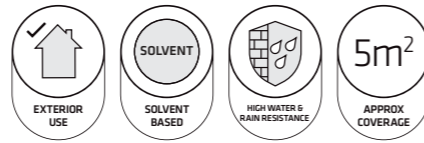

The extensive Black Jack range from Everbuild contains a range of bitumen paints, adhesives, primers and flashing tapes, giving the solution to almost any roofing project.

Within the range is Black Jack 901 Black Bitumen Paint; a solvent-based, full-bodied bitumen which, when dry, forms a film to give a waterproof, weatherproof and corrosion-resistant protective coating. Black Jack 904 Bitumen Roof Felt Adhesive is the answer when applying roofing felt to metal, concrete or timber; a cold applied adhesive with a high bond strength. Also, within the range is Black Jack 903 Bitumen Trowel Mastic; a heavily-filled bituminous compound containing added fibres for reinforcement, and which remains soft beneath the surface to allow for moderate movement.

With a modern new look and cohesive branding, the Black Jack range is sure to stand out on any merchant display.
